BULLETIN NO. 4.

SURPLUS STOCK

—FROM—

The Huntsville Wholesale Nurseries.

HUNTSVILLE, ALA.

Shipments from St. Louis, Mo.,

.....AT.....

ONE DAY'S NOTICE.

WE have for the past twenty-three years offered in assorted lots at St. Louis in Spring such stock as we had in surplus. Herein is a schedule of what we now have in St. Louis for immediate shipment. The stock is exclusively of our own growing, at Huntsville, Alabama, fresh dug this Spring, and packed in the best manner in moss and warranted in fine condition. Everything is fine of the grade, with full fibrous roots, and not culled, as we adhere to a strict system of grading.

BELOW THE BLIZZARD LINE.

Our nurseries are far enough south to escape the severe freezing weather. Everything is bright, green and fresh—sound to the tips. Nearly all the sorts offered are standard sorts, such as most nurserymen can use in assortment with their own growing. Orders should be sent in as soon as possible, but the stock need not be shipped until wanted, as we are prepared to hold it in good condition. We have nothing for sale not offered in this list.

It will be noticed by some of our correspondents that we have refused orders the past season for several articles listed. Our fear of overselling and some countermands are responsible for this. We ask attention to the small-sized trees offered for transplanting into nursery rows. All of the small trees, as well as the large ones, are very nicely rooted, and everything is young, smooth and bright.

We can refer to nurserymen who have bought of us in every State and Territory. We can give satisfaction, and guarantee it for these shipments.

TERMS: Cash with order, or 30 to 60 days from date of shipment to responsible, prompt-paying parties. In box lots the price of boxes is included, but the price of boxes or orders filled from the Nurseries is extra. The cost of drayage will be charged in both cases.

For convenience in telegraphing a cipher is given. The cipher word stands for one box only in cases where there are more than one in the same assortment.

Address

W. F. HEIKES, Manager,

Care ST. LOUIS REFRIGERATING & COLD STORAGE CO.,

Lewis & O'Fallon Streets, ST. LOUIS, MO.

ST. LOUIS, Mo., March 25, 1903.

HEIKES--HUNTSVILLE--TREES.

Address W. F. HEIKES, Manager, care St. Louis Refrigerating & Cold Storage Co., Lewis and O'Fallon Streets, St. LOUIS, Mo.

 Be careful to give this address in full.

Use the Nurserymen's Telegraphic Code in telegraphing. Any one not in possession of a copy will be supplied upon application.

ASSORTED LOTS.

We offer the following assortments in box lots at low prices to insure quick sales. We will not open or repack anything. The stock is of the same quality as that sent out by us heretofore. Each box contains an assortment as shown. In ordering one or more boxes, should the particular lot desired be sold, state what substitution will be allowed. The prices quoted include the cost of boxes and the freight from Huntsville to St. Louis—the drayage charges are to be paid by the purchaser. When the postoffice address and the railroad station differ, always give explicit marks for the boxes when ordering.

PERFECT DORMANT CONDITION.

Our stock is all in perfect dormant condition, and we are prepared to keep it so until the end of the season, as everything is now in cold storage.

INSPECTOR'S CERTIFICATE.

Our card with Inspector's Certificate is placed on all boxes and packages. Any one ordering from a State where more than this is required should inform us in ample time to comply with the law. Should any one desire this card removed before shipping, it should be stated in the order.

FREQUENT BULLETINS.

We will issue Bulletins from St. Louis, weekly during March and April. Any one failing to receive them regularly will please write for copies.

FREEZING WEATHER.

There is always more or less danger of trees being caught en route in freezing weather in Spring. We pack in such a manner that should the contents of the boxes freeze solid on the way to our customers, the trees will receive no injury if the frost is allowed time to come out before the trees are removed from the boxes. The trees should be taken from the boxes as soon as frost is out, or should there be no frost in the boxes when received, the trees should be removed from the boxes immediately upon arrival. We practice in this respect what the experience of many years has taught us. If our customers will follow these rules and notify us of the condition of the trees at once when taken from the boxes we will guarantee good condition. Notice should be sent us at once by telegraph, at our expense, if there is any cause of complaint or should the trees be refused, stating reasons. The trees will be considered accepted if removed from the boxes in which they are packed.

TERMS AND CONDITIONS.

For further terms and conditions concerning risk of transportation, claims, etc., see our monthly Price List.

LINING OUT TERMS.

The small sized trees offered in this list are very appropriate for Lining Out in nursery rows and should make good salable trees for the Fall of 1903 or Spring of 1904. Upon trees for this purpose we will accept notes, on responsible prompt-paying parties, payable on or before May 1, 1904, with the maximum legal rate of interest from date of invoice. All the trees 3 to 4 feet and under sizes and the No. 1½ and No. 2 Roses come under these terms.

If Lining Out terms are desired it must be so stated at the time the order is made,

PEACHES—One Year—and "June Buds."

The following varieties of peaches, next to Elberta, are the most valuable market varieties that have been well tested. They ripen in the order named—Carman, Hiley or Early Belle, Family Favorite, Belle of Ga. They are hardier in bud than Elberta, and in many places where Elberta fruit buds are killed this season these varieties are sound. The Carman ripens from ten days to two weeks earlier than Elberta, the others following in succession—all earlier than Elberta.

The 3 to 4 feet and undersizes are mostly June Buds. They are equal if not superior to one-year-olds. They are stocky for their height and well matured and are in perfect condition.

ROSES--Dormant. Field Grown. Own Roots and Grafts.

The No. 1 plants will have three or more branches and will be cut back to 18 or 24 inches. The roots are very fine. We make a grade of Roses called No. 1 $\frac{1}{2}$. This grade will be made up of plants just under No. 1, such as do not have the required number of branches or slightly under weight and height, and make a very nice grade for mailing.

No. 2 PLANTS FOR TRANSPLANTING AT ONE-HALF THE PRICE OF No. 1. The tops of No. 2 plants will be cut back to 2 or 3 inches, as they are only intended for transplanting
